Sprinkler Irrigation System	5
Rain Gun Sprinkler System	7
Garden & Landscape Irrigation System	8
Fittings & Accessories	10

Diverse range of drip technologies provides precise, efficient, flexible and cost-effective irrigation. These technologies provide optimum solutions for diverse climatic, topographical, soil and water supply conditions, serving a wide range of crop irrigation applications, with excellent performance and results.

Primary application: All field crops like sugarcane, cotton, grapes, carnations, banana, mango, pineapple, vegetables, tea gardens, green houses etc.

Minisprinkler system is specially designed as per the suitability of different crops and climatic conditions at lower cost, delivering high quality irrigation and improved crop yield. High-impact, heavy-duty plastic materials provide strong resistance to corrosion, chemicals, and radiation.

Primary application: irrigation and germination of vegetables, potatoes, flowers and nursery crops.
